BUTTER.

THE

Ask the attention of a'l interested in the re-

duction of the extravagant cost of Hetter, to their practical and economical system of making pure prime Butter by aid of the

RITRACT OF BUTTER PLANT. A brief aliusion to the orisin of this important discovery may not prove uninteresting. Among the authenticated records of the remowned Captain Cook's voyage around the world, is found the statement, that waite so-journing for a shore time on the Stasilian Coast of South America, he observed the natives using in the properation of their food, a peculiar oil, which, upon examination, he round to posses the appearance, taste and flavor of Butter; upon further inquiry, however, he securiained that it was simply a substance that the natives distilled in a crude and imperfect manner from a rich and inxminal plant that grew spontaneously and abundantly in that warm tropical country. A few years ago an eminent French chemist, while on a professional visit to the tropies, made numerous experiments with this remarkable production of nature, and succeeded in extracting a concentrated essence of the plant. The formula for its preparation, and the Sole Right for the sale in this country are the exclusive property of this company, by whom it was purchased from the original discovers. We claim for this remarkable, yet simple and perfectly harmless preparation—

1st. That Sutter, which from age or whitever.

2st. That Sutter, which from age or whitever. All Light, Compact, Burable and Eco-For Circulars, address Patentees and Manudutter.
2d. That Butter, which from age or whatever cause, thay be strong, ranchi, streamed or coanse-grained, and osmparatively theires for general use, by the aid of this Extract is re-

general use, by the ain of this Extract is restored to its original freehness and sweetness,
fine grain and even color.

3d. By the use of this Extract, one pound of
deli-lous, fresh Butter is actually made from
one pint of milk.

4th. That a pure and excellent table Butter
can be made, at a cost of from 15 to 20 cents per
pound. The chief expense wherein being Butter, which is the essential base.

5th. That Butter manufactured by the aid of
this Extract is equal in every respect to the
best Butter made by the ordinary method.

8th. The Extract, after thorough analysis,
by able chemists, is pronounced perfectly free
from any deleterious substance, the ingredients being purely of a vegatable patters.

7th. In proof of the foregoing assertions, the
factory of this company is making one ton of
Butter per day, which meets with ready sale
in the New York market, and is consumed
from the tables of the first bottle, restourants
and private families in this city and elsewhere.

A sample package of the Extract sanficient
to make fifty pounds of Sutter, with ful directions for use, will be sent to any address on
the receipt of St.
